

COMPANY NEWS

Established in Beirut in 1973, Sounds Inc. was among the first distributors to offer both Hi-Fi and Professional audio in Lebanon.

Through its exhaustive portfolio of sound and video installation projects (Hotels, Villas, Residential Flats, Home Theaters, Restaurants, Pubs, Auditoriums, etc.), Sounds Inc. has acquired extensive experience and an excellent reputation in the audio/video field.

Sounds Inc. is excited to launch its first ever quarterly newsletter.

SOUNDS INC. ATTENDS ISE 2019 IN AMSTERDAM

ISE is the largest AV and systems integration show in the world. The 2019 edition ran from 5 to 8 Feb at the RAI Amsterdam, and was the largest to date in terms of both exhibition space and attendee registrations.

Highlights of ISE 2019 included: Naim Audio talks about Naim Uniti All-In-One Solutions for Home Audio; Atlas-IED's Speakers disappear into the ceiling; The Lenbrook Group of Companies forming a division to focus on music streaming and multi-zone audio in commercial spaces; and many other developments.

HIGH FIDELITY AUDIO NEWS

Triton One.R Rave Review, from Dennis Burger for HomeTheaterReview

"The original Triton One did a fantastic job of integrating its powered bass section with its passive bass and lower midrange, mind you. The One.R simply takes this to a new level... There's a natural, effortless fluidity to the bass, upper bass and lower midrange that's simply a step up from the Triton One."

All in all Dennis sums it up by calling the Triton One.R, "An entirely new animal."

The CS 460 EV from DUAL, A Noble Product with Convenience

The new CS 460 EV has the identical built and benefits from the same technical DATA as CS 460 but with addition of a high quality, specifically designed and unique MM phono pre-amplifier.

It is important to know that the CS 460 EV Phono Pre-Amplifier differs greatly in terms of sound quality and built from the available mass produced Phono Preamplifiers which are installed in most of the budget turntables in the market.

PROFESSIONAL AUDIO NEWS

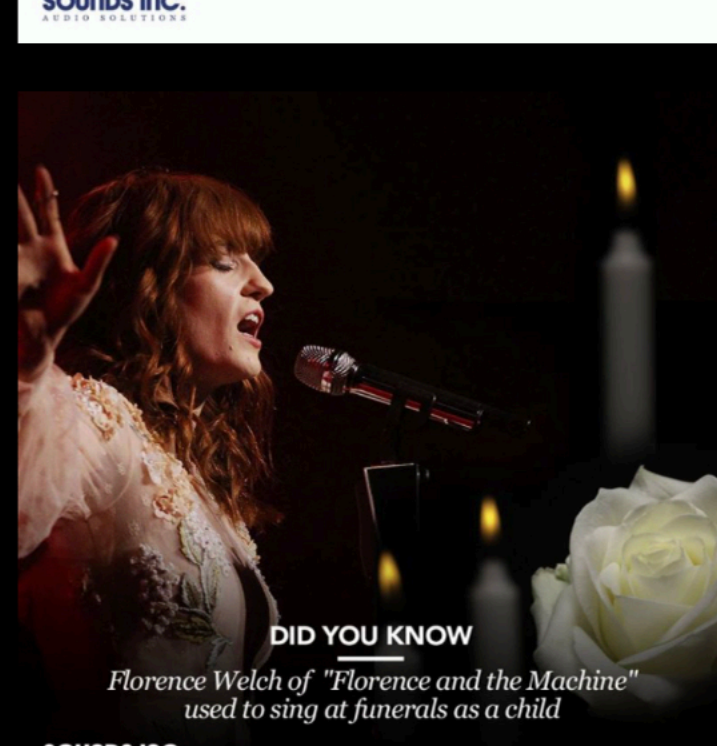

Wharfedale Pro's SIGMA Series, Engineered for Fixed Indoor Installation

With MDF construction, custom Wharfedale Pro drivers and a line up including discreet column models, SIGMA is a great-sounding and very practical series for fixed indoor installations.

As the world trend for installation business continues to grow (while the 'MI' business is shrinking), SIGMA and Wharfedale Pro's other installation series products are important categories to focus on.
